The Duplex Mobile Scanning Solution!

The Visioneer Strobe XP 300 is perfect for the busy professional who needs a fast and reliable duplex scanner for the office, on the road or at home. Measuring only 2″ x 2.5″ x 12″ and weighing a mere 20 ounces, the Strobe XP 300 is slim and lightweight. It fits neatly on a desk and packs easily alongside your laptop or in a briefcase for travel. Scans anywhere because it is powered through the USB port, or choose wall-powered mode to conserve your laptop battery. Now you can quickly scan, file and store all of your documents, plastic ID cards, photos, articles, brochures and business cards no matter where you are.

The Visioneer Strobe XP 300 instantly turns paper documents into distributable digital files and when powered through the USB port, can be used even when electrical power is not available, convenient and compatible. Imagine being able to scan receipts in your car, business cards on an airplane and work effortlessly in foreign countries.

Scan Anything Anywhere

The Visioneer Strobe XP 300 is a multi-tasking machine that fits easily between your monitor and keyboard. With its patented AutoLaunch Technology all you need to do is insert a document to automatically start scanning. In duplex mode it scans documents at 6 seconds per image. The powerful paper management software bundle valued at over $200.00, lets you organize your scanned documents into text-searchable PDF files and store them in the same folders as your PC-created files from Microsoft Office, Adobe Acrobat and numerous other applications.

Scan to Text-Searchable PDF

Transform volumes of paper, photos and existing electronic files into organized digital files that you can quickly find, use, share and store. In PDF format, you can instantly search documents for keywords or phrases. This gives them additional archival benefits beyond traditional storage, and the widely accepted PDF format lets everyone view and print documents – on any computer. The result is the ideal solution for streamlining information and making it easy to find.

Strobe XP 300

The perfect solution for vertical markets

Healthcare

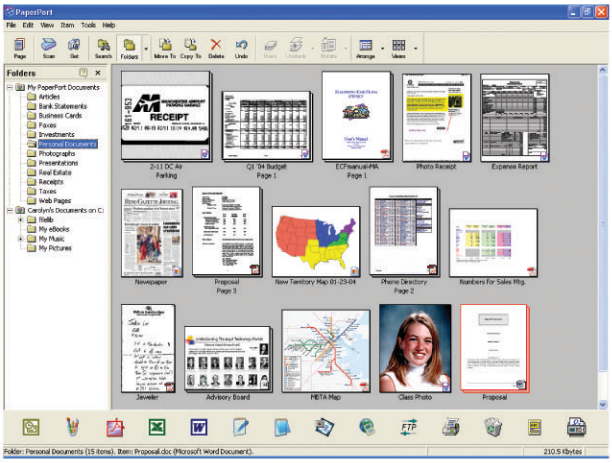
In healthcare, about 20% of the claims submitted by hospitals are denied by the insurance companies. Ninety percent of those are due to typographical errors. By scanning patient documents, insurance cards and driver slicense at patient registration and creating a digital image accessible to the patient s authorized care providers; hospitals can reduce registration time, solve data inaccuracy problems and improve customer relationships.

Insurance/Banking/Legal

From Sarbanes-Oxley to the PATRIOT act, records management has become an important part of doing business. However, most legislation and regulations have been handed down with no road map for compliance. A document scanner is therefore essential to first digitize paper records into electronic files that can be securely and accurately stored, transmitted and retrieved.

Mobility

Road warriors looking to maximize productivity even while holed up in a hotel room will easily appreciate the versatility of the Strobe XP 300 as a mobile scanning solution. They can quickly capture the day's contracts, business cards, briefing papers, and expense receipts, unplug the scanner and slip it into their laptop bag. When used in the office, it is a sleek, unobtrusive tool for managing the paper that lands on your desk throughout the day.



The Strobe XP 300 is integrated with ScanSoft PaperPort Pro Office and OmniPage making it easy to organize your life and work.

Scans all these...
